

# British Association for Crystal Growth Annual Conference

10th-12th July 2011  
University College London

Call for abstracts:  
submission by 1st May 2011

## Scientific Programme

- Control, understanding and modelling of nucleation, including structure prediction
- Crystal growth: measurement, control, prediction and application to enhance formulation/secondary manufacturing
- Metal organic frameworks and bioinorganic systems
- Continuous crystallisation
- Chiral separations
- Process Analytical Technology (PAT) for the measurement of crystallisation processes

## Annual Lecture

Kevin Roberts, University of Leeds

## Keynote Speakers confirmed

Mike Anderson, Manchester University  
Wim Bras, ESRF, Grenoble  
Paul McMillan, University College London  
Chris Price, GlaxoSmithKline  
Sally Price, University College London  
Andrew Putnis, Wilhems-Universität, Münster  
Jan Sefcik, Strathclyde University  
Elias Vlieg, Radboud University, Nijmegen
